

MeM Prime Nature

Complete organic feed for fish larvae and post larvae

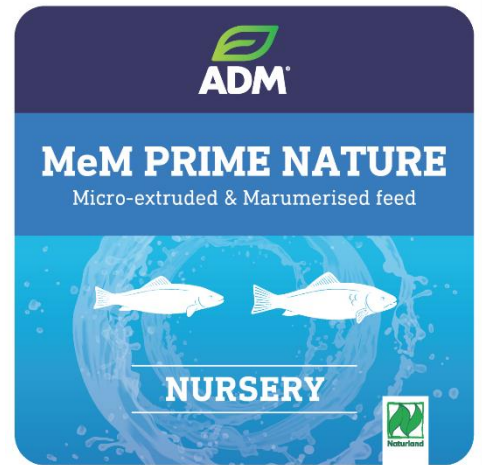

FEATURES

MeM Prime Nature is an organic nursery feed for fish cultured in intensive conditions, where nutrition and water quality are two crucial parameters to ensure a good quality of fry.

MeM Prime Nature is produced with cold micro-extrusion and marumerization processes. The purpose of using this innovative technology is to ensure a full water stability while avoiding the use of chemical binders.

BENEFITS

- Micro-cold-extruded product.
- To be used in organic production.
- Preventing denaturation of essential nutrients.
- Lower leaching preserver the water quality in the nursery tanks.
- High stability in water.
- Homogeneous and tiny particle size facilitates apprehension by the shrimp.
- Marumerized product.
