

BactoSafe H

Microbial water conditioner

FEATURES

BactoSafe H is a concentrated bacterial complex specially selected to enhance water quality in hatcheries, improving the health of fish and shrimp. The specific strains have been selected for their unique properties.

BENEFITS

- Concentration CFU / g: 2.0×10^9 .
- Regulation of the microbial ecosystem of culture water.
- Reduces dangerous levels of ammonia, nitrite and sulfide pollutants.
- Reduction in undesirable micro-organisms.
- Robustness and stability during storage.
- Reduce needs for water exchanges.

INGREDIENTS

Bacillus subtilis, *Bacillus licheniformis*, *Bacillus coagulans*, *Lactobacillus acidophilus*, *Saccharomyces cerevisiae*, growth medium.

INSTRUCTIONS FOR USE

Hatchery & Nursery Application

General Larval Culture, Maturation and spawning. Weigh 5 ppm (5 g / m³), mix with water and spread evenly over the tank. Start using before stocking larvae and apply daily, compensating the water exchanged. In case of high ammonium or delays in the stages, apply 10 ppm. Activate 3 hours in advance before applying it. How to activate: vigorously mix 100 / 200 g in 1 L of water either manually or with aeration, then fill up to 5 L, and resuspend it every hour for 3 hours.

Live Feed

After activating the product, as previously described, you can use it for Algae, Rotifer culture, Artemia hatching. Weigh 5 to 10 ppm (5 to 10 g / m³), mix with water and spread evenly over the tank. based on natural ingredients. Variation in color is possible but does not affect the performance.

PRODUCT INFORMATION

BactoSafe H is non-toxic and harmless to humans or animals. It leaves no residues and has no withdrawal time. It is a microbial water conditioner and should not be mixed with food.

PACKAGING

Pouches of 1.0 kg (6.0 kg carton).

STORAGE CONDITIONS

Store in a dry and cool place (best at 20 °C, max 35 °C).

Shelf life: 2 years.

ADM IS YOUR GLOBAL LEADER IN ANIMAL NUTRITION

We are dedicated to enabling sustainable growth. Growth that benefits our customers, the world's population and this planet on which we live. We are One ADM Team working across a unique vertically integrated portfolio, providing exceptional levels of customer service and experience as we work together to address the three main challenges that our customers face: health through nutrition, performance & quality, and sustainability.
