

TECHNICAL CARD

ΩMEGA SPAWN F

Omega Spawn F is a high quality supplementary maturation feed for Fish broodstock. Containing top quality ingredients, Omega Spawn F can improve fecundity and egg quality. Omega Spawn F will help reducing biosecurity risk by replacing fresh seafood supplementation.

- Containing all necessary nutrients for broodstock
- Preventing denaturation of essential nutrients
- Highly attractive as it resembles fresh seafood supplementation
- Quick and easy preparation: DIY concept
- Convenient application
- Easily formed in different shapes
