

# ROYAL SPAWN S

Royal Spawn S is a high quality supplementary maturation feed for shrimp breeders. This maturation diet is a supplement to fresh feeds normally used in shrimp maturation such as squid, Artemia Biomass or polychaetes.

Royal Spawn S improves the condition of females and speeds up their recovery after each spawn.

- Preventing denaturation of essential nutrients
- Homogeneous particle size facilitating apprehension by shrimp
- Low leaching preserving water quality in the tanks
- Improving nauplii quality and pigmentation
- Cold-micro-extruded product
